

Panel Glide Blinds

CONVENIENT

STYLISH

VERSATILE

Transform Your Space With Effortless Elegance

Contemporary in design and ideal for sliding doors our Panel Glide system offers a modern solution for privacy and sun protection. This innovative shading option is perfect for large windows and doors, adding sophistication to any interior design scheme.

Our Panel Glide Blinds feature wide panels that effectively reflect and filter daylight. When open, the panels stack neatly behind one another, maximizing light in the room. Closing the panels creates a complete fabric screen, providing light control and privacy.

Transform any room with the cultured and sophisticated look of Panel Glide Blinds. Choose from our extensive range of quality blackout or translucent light-filtering fabrics, enhancing your rooms ambience while maintaining control over light.

Features & Benefits:

- Versatile fabric options: Choose from blackout, light-filtering, and sunscreen fabrics for light control and mood setting.
- Sleek tracking system: Our roller-mounted carrier system ensures easy operation and a slim, discreet track.
- Customisable design: Opt for timber or aluminium battens to match your desired aesthetic, from casual to formal.
- Optional Pelmet: Add a touch of elegance with our coordinated pelmet, providing a stylish finish to your blinds.

Made to order and beautifully handcrafted, our Panel Glide Blinds ensure a superior product of the highest quality.
